Langports English Exams Centre's 1st Computer Based Cambridge Exams

Last Saturday, the **Langports English Exams Centre** held their first Cambridge computer-based FCE examination at the Langports Surfers Paradise campus, on the Gold Coast. We had 6 candidates who sat the exam, from Brazil, Switzerland, Czech Republic, Japan and Korea. They completed their speaking test on Friday afternoon and then on Saturday they completed the Writing, Reading, Use of English and Listening.

Feedback from the candidates showed:

- they enjoyed the format of the exam
- they found it easy to navigate
- the tutorial at the beginning of each section was very helpful and gave them a clearer picture of what they needed to do to answer each question
- they are happy about receiving their results is much faster; it only takes two weeks compared to six-eight weeks for paper-based results.

Overall, the candidates were extremely satisfied with their exam experience and would recommend the computer-based exam format to fellow students.

LEEC however offers both paper-based and computer-based versions of the Cambridge ESOL exams, giving students a choice; some prefer doing it on the computer, whilst others still prefer the traditional pen and paper method. **To find out more about the Langports English Exams Centre, visit the new website.**
